SUMMER TRADING NETWORK 2014

[View this email in your browser](#)

**SUMMER
TRADING
NETWORK
2014**

NEW YORK, NY
CATCH NYC, THURSDAY
JULY 10
TWO THOUSAND FOURTEEN

Markets Media's Summer Trading Network is next week -- trading volume and market volatility have been low, but our afternoon/evening event will be plenty lively! We'll cover the current landscape and outlook for a breakout of the current pattern over a panel discussion, Conversation and of course, a rooftop cocktail networking session.

Join us for compelling content, chilled cocktails and C-level connections!

AGENDA • Thursday • **JULY 10, 2014**

1:30 – 2:30PM **Registration & Networking**

2:30 – 2:35PM **Opening Remarks**

2:35 – 3:35PM **Panel Session: MARKET STRUCTURE IN FOCUS**

- Amid evolving electronic equity markets, the state of U.S. equity market structure is under scrutiny like never before. What is truth and what is fiction regarding the efficiency, integrity, and stability of the market?
- Derivatives markets are moving, slowly and fitfully, from over-the-counter to exchange-based trading with centralized clearing. What have we learned from the very early days of this transition?
- How is 'Big Data' managed, analyzed and utilized in today's high-speed market? What are the most important pre-trade, real-time and post-trade considerations?
- Discussions of looming regulation have given way to discussions about compliance. What are the main challenges in making sure trading passes muster with regulatory guidelines?
- Doing more with less: updates on managed services, multi-asset-class trading, and workflow automation

PARTICIPANTS

Andrew Upward, Vice President, Rosenblatt Securities (*Moderator*)

Rishi Nangalia, Chief Executive Officer, REDI

Peter Nabicht, Senior Advisor, Modern Markets Initiative

Jock Percy, Chief Executive Officer, Perseus Telecom

Gautham Sastri, President & CEO, iSentium
